**Stevens & Associates, Inc**  
Newbury, MA

**SENIOR ASSOCIATE** (06/08 – Present) Provide professional support services during the mediation, arbitration, and litigation of complex construction disputes. These include construction drawing review, schedule analysis, analytical computer modeling, and the development of courtroom presentation documents.

**Woodman Associates  
Architects**  
Newburyport, MA 02/05 –  
03/08

**PROJECT MANAGER** (06/06 – 03/08) Managed all aspects of 20 unit townhouse and condominium construction on an urban brownfield site. Held weekly project meetings. Reviewed Product designs and submissions. Developed field coordination solutions. Administered the construction contract. Directed and coordinated work with consulting engineers. Inspected field work. Completed design documents for a renovation and addition to 250 year old multi family home. Designed a substantial addition to a three story home for owner's investment purposes.

Sample projects: Foundry Square Condominiums, Newburyport, MA (25,000 SF New Construction; Project Cost: \$5,400,000), Lane Residential Development, Essex, MA (5,000 SF Renovation/Addition; Project Cost: \$500,000), Barbiri Residence, Hamilton, MA (2,500 SF Renovation/Addition; Project Cost: \$400,000)

**ASSISTANT PROJECT MANAGER** (02/05 – 06/06) Assisted in managing all phases of design, documentation and coordination of an urban expansion for a local bank. Attended client meetings. Directed and coordinated work with consulting engineers. Conducted building code reviews and energy analysis. Assembled project schedules. Reviewed budgets. Organized and consulted with product manufacturers. Attended preliminary contractor meetings. Developed solutions for all aspects of the building design. Reviewed product submittals and designs. Attended weekly project meetings. Reviewed and documented progress of field work.

Sample projects: Newburyport 5¢ Savings Bank, Newburyport, MA (10,000 SF Renovation/Addition; Project Cost: \$4,500,000)

**Tappé Associates, Inc.**  
Boston, MA 08/00 – 02/05

**DESIGNER** (09/02 – 02/05) Conducted feasibility studies for schools, municipal buildings, and localities. Acted as a lead designer on public projects from schematic design through construction documentation phases. Created presentation drawings for committee and public meetings. Attended building committee meetings. Generated existing conditions reports through building surveys, analyses, and documentation. Researched and implemented Mass. State Building Code. Prepared submittals for the Dept. of Education. Developed interview presentations and proposals. Attained approval for elementary school project from building committee and historic district commission following four unsuccessful attempts by other design firms.

Sample projects: L.D. Batchelder Elem. School, North Reading, MA (75,000 SF Renovation/Addition; Project Cost: \$14,000,000), South Shore Charter School, Norwell, MA (53,000 SF Renovation; Project Cost: \$1,100,000 (phase 1)), Woburn High School, Woburn, MA (300,000 SF New Construction; Project Cost: \$69,000,000), Hingham Central Fire Station, Hingham, MA (15,000 SF New Construction; Project Cost: \$4,000,000), Eastham Elementary School, Eastham, MA (56,000 SF Renovation, Addition; Project Cost: \$8,400,000)

**DRAFTER** (08/00 – 09/02) Drafted construction documents for large public bid projects using AIA keynoting format. Designed construction details for steel and masonry building types. Produced construction field sketches for school and library projects. Generated finish schedules. Conducted product research. Developed color schemes and tile patterns for interior finishes. Constructed and rendered virtual building models. Produced schematic site designs.

Sample projects: White Elementary School, Woburn, MA (67,000 SF New Construction; Project Cost: \$9,800,000), Melrose Middle School, Melrose MA (200,000 SF Renovation/Addition; Project Cost: 41,800,000), Aldrich Museum, Ridgefield, CT (25,000 SF New Construction; Project Cost: \$7,000,000), Ambrose Elementary School, Winchester, MA (65,000 SF New Construction; Project Cost: \$11,700,000), The Bromfield School, Harvard, MA (160,000 SF New Construction; Project Cost: \$12,900,000)
